Introduction to Databases — Exercises Information

Flurina Fischer, Vera Benz <firstname.lastname@unibas.ch>

Databases and Information Systems Group
University of Basel

Dates

> Exercises
> > Friday (weekly) 12:15 – 13:00
> >
> > Kollegienhaus, Hörsaal 115

See also organisation slides.

Modalities

> The exercise sheets will be published on ADAM (see "Exercises").

> Exercises should be solved in small groups of 2 people.

> Plagiarism Guidelines

Modalities

> Exercise contain
>> **(Practical)** parts, which have to be presented to one of the tutors/assistants during the exercise slot.
>> **(Theory)** parts, which must be uploaded to ADAM.

Modalities

> **(Theory)** parts must be uploaded **BEFORE** the deadline
> — generally on Sunday evening — to ADAM.
>
>> Use ADAM's team hand-in feature.
>>
>> E-mail submissions will be disregarded.

> Upload **one** well-readable PDF (*.pdf) per exercise.
>> Make sure you have your names and the exercise number specified
>> correctly.

> Use the notations introduced in the lecture.

Modalities

> **One** file per group
>> You will receive the points via ADAM.

> Contains the names of all group members (first and last name)
>> If we are required to search the group we penalize this with the following formula:
>> $p(x) = -1 \cdot 2^{x-1}$ with x number of exercises without names (for $x > 0$).
>> We reserve the right to deduct points for other formal aspects of the submission

Minimal number of points …

… to be allowed to the exam

$$6 \text{ exercises} \cdot 10 \tfrac{\text{points}}{\text{exercise}} \cdot 50 \%$$

$$= 30 \text{ points}$$
